

International symposium "The molecular movies and beyond"

Our network program "Molecular Movies" is to widen the scope of dynamic crystallography at SACLA and to creating proteins and small molecules with additional or new functions using various methodologies. This symposium is to discuss the latest topics in the field with international experts.

[Date] May 12 (Thr) and 13(Fri), 2022

[Venue] RIKEN Yokohama campus, main office building 1F (hybrid format using Zoom)

[Information/registration] Symposium HP (https://cscenter.co.jp/mol_movie/).

Registration deadline: April 10, 2022.

Speakers

Structural biology and instrumentation

Prof. Ilme Schlichting (MPI for Medical Research)

Dr. Alke Meents (DESY)

Prof. Marius Schmidt (Univ. of Wisconsin-Milwaukee)

Prof. Eriko Nango (Tohoku University)

Chemical biology

Prof. Dirk Trauner (New York University)

Prof. Petr Klán (Masaryk University)

Prof. Peng Chen (Peking University)

Prof. Shinya Tsukiji (Nagoya Institute of Technology)

Computational science

Prof. Erik Lindahl (Stockholm University)

Prof. Helmut Grubmüller (MPI for Multidisciplinary Sciences)

Prof. Qiang Cui (Boston University)

Dr. Junichi Ono (Waseda University)
